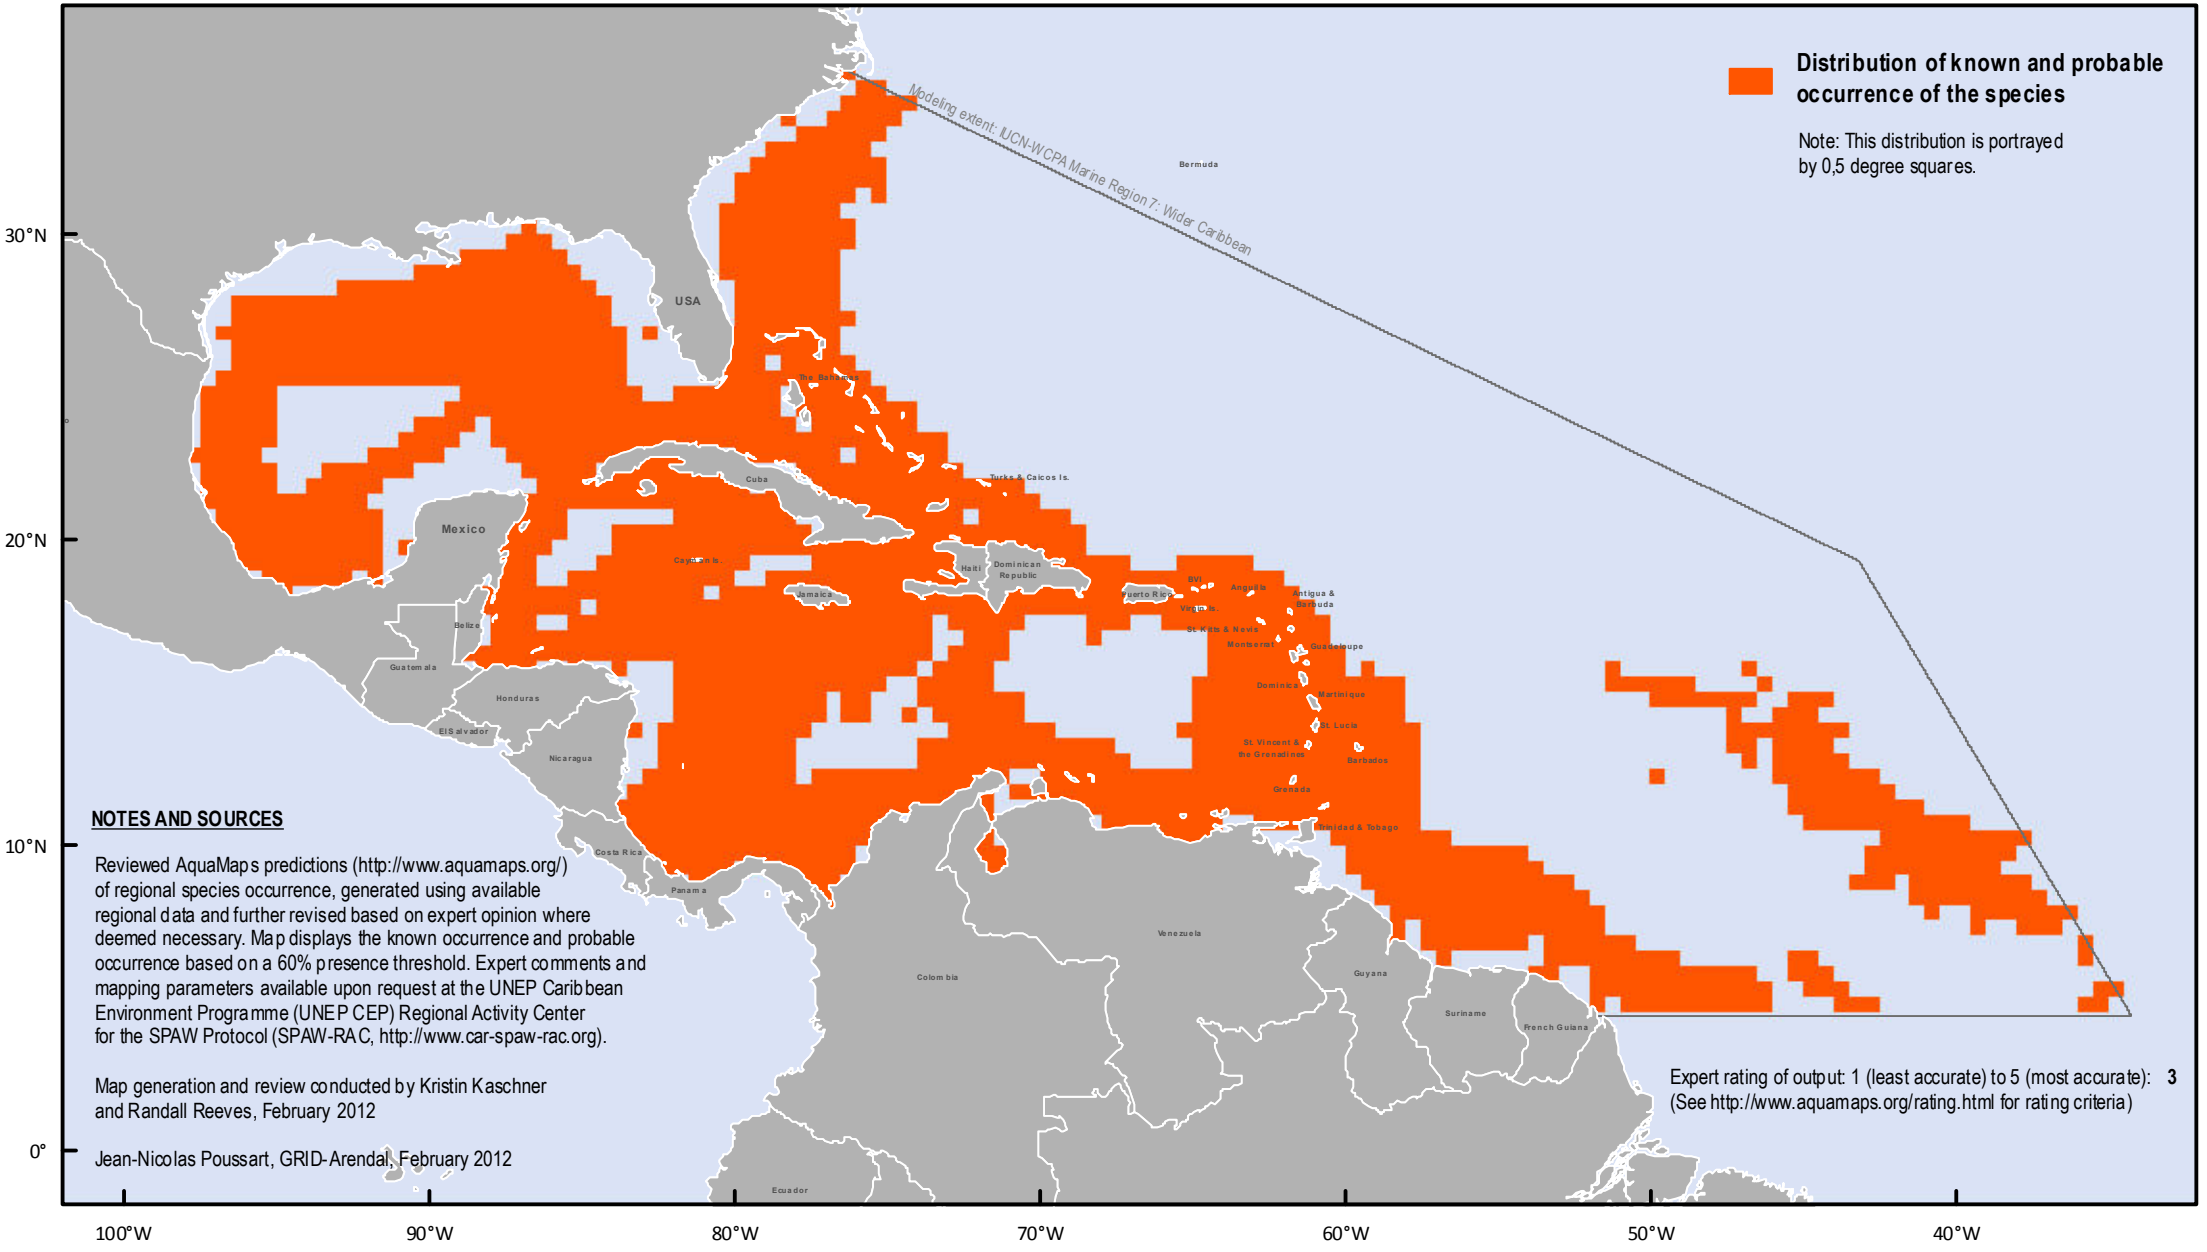
Consensus map of known occurrence and probable occurrence based on habitat suitability

Short-finned Pilot Whale

(Globicephala macrorhynchus)



NOTES AND SOURCES

Reviewed AquaMaps predictions (http://www.aquamaps.org/) of regional species occurrence, generated using available regional data and further revised based on expert opinion where deemed necessary. Map displays the known occurrence and probable occurrence based on a 60% presence threshold. Expert comments and mapping parameters available upon request at the UNEP Caribbean Environment Programme (UNEP CEP) Regional Activity Center for the SPAW Protocol (SPAW-RAC, http://www.car-spaw-rac.org).

Map generation and review conducted by Kristin Kaschner and Randall Reeves, February 2012

Jean-Nicolas Poussart, GRID-Arendal, February 2012

Expert rating of output: 1 (least accurate) to 5 (most accurate): **3**
(See http://www.aquamaps.org/rating.html for rating criteria)
